

EtherApps Forge

7-Day Trial Guide

A practical one-page path for testing MSIX and AI packaging with a real application.

Audience: EUC, Intune, app packaging, and Microsoft platform teams

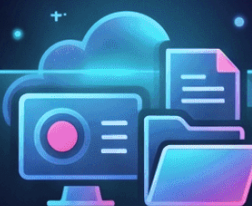

1.

Pick the right app

Choose a real business app with packaging friction.

2.

Capture clean evidence

Record installer behavior, files, registry, and services.

3.

Use AI packaging

Let Forge help draft and review packaging steps.

4.

Validate MSIX readiness

Check launch, repair, uninstall, and user context.

5.

Start the 7-day trial

Sign up and prove one packaging outcome.
